Re: Testimonial for Web Design By Donna

I recently contracted 'Web Design By Donna' to build my new company website www.coastal-colors.com.

Donna and I met just the once to discuss my ideas and she instantly picked up on the style and presentation I wanted for the site.

The very next day, Donna sent me a mock up of what she thought I would like and it was exactly what I wanted! She has a great knowledge of web design both technically for optimization and artistically. She also advised me throughout the whole process.

All further communication between us was carried out by either email or telephone which made it very convenient for me as a busy business owner.

I cannot speak highly enough about Donna and her web design service. The whole process went like a dream, was very quick to complete and she was a pleasure to work with. I recommend her service wholeheartedly.

Please do not hesitate to contact me should you require further information.

Sincerely,

Julie Chilton
